A club that will foster basic knowledge and understanding of the financial market. It will center on doing simulated experiences on investing in a simulated stock market. Students are given an imaginary \$100,000 to invest. The transactions that students make match the actual stock market values of the individual stocks. The club provides a fun and entertaining experience for students while at the same time allowing students to learn some important lessons about investing. Amongst the many activities is a mock portfolio competition aimed at giving students insights into the workings of the stock market. On a weekly or bi-weekly basis the club meets to analyze portfolios created by members. When the members fully understand the basics, we might form teams that could compete in a virtual stock market. The enrollment for such simulation will then have to be raised and paid for by the team.

Model United Nations (MUN), is a student-driven educational simulation in which students learn about diplomacy, international relations, and the United Nations based on current and relevant international issues. MUN involves and teaches research, public speaking, debating, and writing skills, in addition to critical thinking, teamwork, and leadership. Brent MUN hosts an annual conference to teach these skills to local schools as a training exercise and then attends a larger MUN conference with these schools in Manila in the fall at the World Health Organization. In second semester selected delegates are sent to Beijing to compete against other APAC schools in writing and debating resolutions using Parliamentary procedures)and winning superlatives like "Best Looking Delegate" or "Delegate Most Likely to Rule the World"). Come join us for an engaging way to be a better global citizen.
