

Summer Program Opportunities

This is a database of Summer Program Opportunities for Upper School students. Summer Programs can give students opportunities to explore campuses around the world, develop fields of interest and delve into different cultures and languages. Students are not required to attend summer programs. This database is organized by location with special categories for college tours and IB preparation courses. New opportunities are constantly being added so be sure to check back. Let us know if any of the opportunities are no longer available and if you have any opportunities that you would like us to add to this database.

Best,
The Brent Manila Counseling Team

Summer University/College tour programs

[College Visits](#) - COLLEGE VISITS offers the college bound student a first-hand look at colleges and universities throughout the United States. Because of our experience in working with a multitude of higher education institutions, we are able to obtain meetings with admissions representatives, student led tours, and campus housing. This helps to take the hassle and worry away from the student and parents in organizing a family visit. COLLEGE VISITS tours cover all aspects of college life. We tour small, medium and large schools, rural and urban, and public and private schools. Our tours cover almost every region of the U.S., so if there is a particular school or region you are interested in, chances are COLLEGE VISITS goes there.

[TS College Tours](#) - TTS College Tours was established to serve international school students who plan to attend university in the US and the UK. Unlike other college tour companies, at TS College Tours we focus on the specific and exclusive needs of international students. Our counselors all have extensive experience in international schools, and they know how confusing it can be to apply to a university where one hasn't grown up. We have the expertise to help students determine what are their "best fit" colleges, to find out and meet and special requirements, and to help them present their unique backgrounds as stand-out assets when they apply.

SCAD Hong Kong: Sham Shui Po, Hong Kong

[Summer Seminars](#)

SCAD Summer Seminars offer workshops for high school students who have completed their freshman, sophomore or junior years. In these workshops, students will gain valuable educational experience while developing their creative vision through exciting art and design assignments and projects, as well as an all-access pass to the university's extensive facilities, resources and libraries. Workshops offered at SCAD Hong Kong are Animation, English as a Second Language, Fashion, Graphic Design, Illustration, Interior Design, Painting, Photography, and Sequential Art. Workshops may include demonstrations, lectures, studio work and local field trips, and are taught by SCAD professors, alumni or select graduate students. To provide maximum individual attention and

[Back to top](#)

collaborative interaction between students and instructors, class size is small, with generally 15 or fewer students in each workshop. Organized daily social and cultural activities create an authentic experience of life as a SCAD student in the city. A closing exhibition of student work is held at the end of each session. Program Contact: hongkongsummer@scad.edu

Temple University - Japan Campus: Tokyo, Japan

[High School Summer Program](#)

TUJ invites high school students to a summer of language and cultural experiences in Tokyo. The 8-night program includes a unique mix of Japanese language classes and a choice from exciting electives like Art, Business, Communications, and International Affairs. In addition to interacting with the other high schoolers in the program, students will also have the opportunity to interact with Japanese high schoolers. With adventures in Tokyo, an overnight excursion to Nikko, and a trip to DisneySea, this will be your Tokyo story to remember! Program Contact: ac@tuj.temple.edu

Canada

Alberta College of Art + Design: Calgary, AB

[Pre-College Program](#)

There are many benefits to ACAD's Pre-College Program, besides learning a whole lot about art + design. You'll make friends, earn college credits, and build an awesome portfolio in just four weeks of full-time, studio-based studies. As a Pre-College student, you will join a talented community of practicing artists + designers who are eager to explore ideas, challenge ideas, and experiment. All classes are taught by ACAD faculty who are passionate about education and helping you to grow.

Queen's University: Kingston, ON

Summer Enrichment Experience

The Summer Enrichment Experience at Queen's gives students the opportunity to learn beyond the school classroom with engaging and challenging courses, motivating them to explore and apply new knowledge. Taught by Queen's students, faculty, and community professionals, they will choose from a variety of disciplines with captivating titles like Historians vs. Hollywood, Keep Calm and Rock On: Engineering our Natural Earth, and Let's Get Down to Business. After the experience, students will return to school with renewed energy, an excitement for learning, and ideas for post-secondary and career planning. Program Contact: linda.lamoureux@queensu.ca

Ryerson University: Toronto, ON

Basecamp

Basecamp is a transformative educational program that will provide select high school students with the education, mentorship, and resources to become successful entrepreneurs and innovators. Students will come in with an idea and leave with a startup! The program is open to all high school students. Students will gain access to DMZ resources, mentorship, and on-demand learning within specialized topics such as design, 3D printing, web and application development, and more. Program Contact: launchzone@ryerson.ca

University of British Columbia: Vancouver, BC

Future Global Leaders Program

Future Global Leaders is a pre-university summer program designed for teens, ages 15-18, who want to get a head start on their futures, and aspire to be leaders in our increasingly global world. Two-week courses include computer programming, economics, environmental science, game writing, international law, journalism, museum studies, neuroscience, politics, and urban design. Students have the opportunity to stay in residence halls on the University of British Columbia's beautiful Vancouver campus, and meet other future global leaders from Canada and around the world. Program Contact: future.global.leaders@ubc.ca

University of Toronto: Toronto, ON

AP Summer Prep Program

The University of Toronto Engineering Academy creates an inclusive community of learning where students are challenged to reach their full potential, putting them on an academic path towards admission to the world's most selective schools of engineering, which require two years of secondary school preparation in Math, Chemistry and Physics. This program is not a camp or a casual summer activity. This is an opportunity for motivated high school students to engage with STEM in the lecture halls and labs of Canada's leading engineering school. Through a rigorous combination of classroom, and off campus learning, students will prepare themselves for AP* credit courses while spending the summer in the world-class city of Toronto. Program Contact: michelle.beaton@utoronto.ca

Europe

The American University of Paris: Paris, France

[Summer Programs](#)

AUP's Summer Programs let you sample the best of what Paris and the University have to offer. Earn credits towards your degree with course offerings in categories like Creative Arts, Exploring Liberal Arts, and Paris: Language & Culture. Discover Paris from the inside, all while having a unique and thought-provoking international and cultural experience. For students over 18 or minors who will be staying with a legal guardian. Program Contact: afayache@aup.edu

Ecole Hôtelière de Lausanne: Lausanne, Switzerland

[Summer Academy](#)

Experience the life of an EHL student for one week this summer in beautiful Switzerland at the Ecole Hôtelière de Lausanne, the first and top Hospitality Management school worldwide! If you are between the ages of 16 and 20, speak English or French, and are intrigued by different cultures, you can take part in practical and theoretical activities to develop your knowledge of hospitality. You will attend exciting workshops, such as an introduction to hospitality leadership, kitchen organization, service excellence, and a hotel business simulation, all while developing your team-working skills. The world of hospitality awaits! Program Contact: sue.coombs@ehl.ch

IE University: Segovia, Spain

[Youth Leadership Summer Program](#)

Summer is the perfect time to increase your knowledge of subjects such as economics, humanities, cultures and societies, and social and business entrepreneurship. Regardless of what you go on to study at university, these topics are an integral part of a well-rounded education. The IEU Youth Leadership Summer Program is an intensive summer program designed for high potential students from all around the world, offering them a unique opportunity to discover and develop their talents. It is also an excellent way to acquire and improve skills and knowledge that are essential in any undergraduate program or profession, such as teamwork, creative problem-solving and communication techniques. The program will be held both of our campuses, Madrid and Segovia. Program Contact: maria.gonzalez@ie.edu

Imperial College London: London, UK

[Global Summer School](#)

Imperial College London's Global Summer School is an intensive two-week residential program for the highest achieving students across the world. It offers participants the chance to learn from current teachers at a university ranked eighth-best in the world – the only one in the UK to focus solely on science, engineering, medicine and business. You will have the chance to take your subject knowledge to the next level through a challenging academic program that balances lectures, seminars and a high level of practical work, as well as access to a packed evening and weekend social program to help you enjoy your time in London to the fullest. Program Contact: globalsummerschool@imperial.ac.uk

Jacobs University Bremen: Bremen, Germany

[Summer Camps: Innovation, Creativity, Diversity](#)

[Back to top](#)

Jacobs University in Germany invites young, bright students to participate in an international, English speaking summer camp on its campus in Bremen. A range of workshops reflecting Jacobs University's research foci in Health, Mobility, and Diversity will be on offer. The workshops address issues ranging from mathematics, technology, and environmental energy to globalization and social sciences. More details about the program are available on the summer camp website. The Goethe Institute in Bremen is offering an exclusive discount for participants of our Summer Camp to undertake an intensive German language course. This will take place after the camp ends.

King's College London: London, UK

[Pre-University Summer School](#)

This is your chance to find out what it is like to study at one of the world's top universities. This two week intensive program combines academic classes with university preparation sessions tailored to specific subject areas, such as Business Management, Medicine, Law, Politics and Psychology. Daily academic classes allow you to deepen your subject knowledge, or test out a new discipline. Practical workshops and advice sessions provide the opportunity to learn new skills and build confidence for the future. With students attending from over 30 countries worldwide and an active social component, this program is also a fantastic opportunity to meet new people and enjoy the cultural, culinary, and entertainment highlights that our central London location has to offer.

Program Contact: summer@kcl.ac.uk

The New School, Paris: Paris, France

[Parsons Summer Intensive Studies](#)

Summer intensive studies at Parsons Paris allow students to experience the vibrant city of Paris from an insider's perspective, exploring the many facets of its art, design, fashion and photography firsthand. The program is open to all students who wish to deepen their knowledge and develop their skills in a rigorous and stimulating academic environment. Classes will be held at Parsons Paris, a short walk from the Louvre, Palais Garnier Opera House, and the Gaité Lyrique Media Arts Center. Many classes will also meet in locations throughout the city, ranging from art and design exhibition settings to architectural landmarks and parks, with coursework complemented by excursions and day trips. Housing is available, as well as full student services and airport pick-up.

Saint Louis University - Spain Campus: Badajoz, Spain

[OPI - Spanish Language Immersion in Spain](#)

Founded in 2003, this summer camp is based on the exchange of language and culture between both native Spanish and English speakers. Students spend three weeks together taking language classes in the morning and doing activities in the afternoon. The language classes are interactive and focus more on culture and everyday practical Spanish than on grammar. The afternoons are filled with workshops, sports, and music. The program concludes with a final performance on the last day, showcasing all that was learned throughout the three-week period. For ages 12-17. Program Contact: hbinns@slu.edu

St George's Hospital Medical School: London, UK

[International Summer School](#)

[Back to top](#)

INTO St George's, University of London is delighted to offer an exclusive two-week Summer School for international students. With great opportunities for hands-on learning, expert advice on the university application process, and an exciting social program, the Summer School is ideal if you are interested in studying Medicine, Biomedical Sciences, or Health Sciences at a UK university. As the UK's only dedicated medical and healthcare university, St George's, University of London is the ideal place to gain first-hand experience of both university life and a medical environment.

U.S.A. - Midwest

Alma College: Alma, MN

Global Challenge

The Alma College Global Challenge is a United Nations Security Council crisis simulation, addressing topics such as the Russian invasion of Ukraine, the Ebola outbreak in West Africa, and the devastating effects of climate change. Students will represent the 15 countries on the Security Council, and work together to draft resolutions that outline solutions to the crisis at hand. By the end of the week students will understand the impact they can have in the world, and will have the tools to begin making a difference. High school student registration is \$350. Fee waived for the first 10 registered international students who have previous MUN experience. Program Contact: crawleyje@alma.edu

Benedictine University: Lisle, IL

Camps at Benedictine University

Great Lakes Volleyball, id Tech, No. 1 Soccer Camp, OPUS, Point Guard College, Soccer Success, Spotlight Youth Theater

Every summer, Benedictine University, located in Lisle, Illinois, (40 km west of Downtown Chicago) offers multiple summer camps for high school students. From sports camps including lacrosse, basketball, volleyball, and soccer to arts-based camps like technology, music and theater. Improve your game or design a game - there are many opportunities for students to get involved at Benedictine University! Housing options and meal plans are available for students. Prices range depending on program. Program Contact: lsimios@ben.edu

Carleton College: Northfield, MN

Summer Academic Programs

[Back to top](#)

[*Summer Computer Science Institute, Summer Humanities Institute, Summer Language & Global Issues Institute, Summer Quantitative Reasoning Institute, Summer Science Institute, Summer Writing Program*](#)

Carleton College offers six pre-college programs that give high-achieving high school students the ability to experience what life is like at a small, liberal arts institution. Each three-week program is taught by Carleton faculty members and incorporates hands-on learning in the classroom resulting in a final research project/presentation. Carleton also offers the [Carleton Liberal Arts Experience](#) program and an [Ultimate Frisbee](#) program for one week each in the summer.

Program Contact: summer@carleton.edu

Loyola University Chicago: Chicago, IL

[Summer Scholars](#)

[*One-Week Seminars, Six-Week Academy*](#)

Loyola University Chicago's Summer Scholars Program allows secondary students to explore their academic interests, get a taste of university life and discover life in a vibrant American city. Week-long seminar subjects include Arts & Culture, Business & Leadership, Pre-Health & Wellness, Psychology, STEM Fields, and Sustainability & Social Justice. In addition to these programs, there is also a Six-Week Academy in which students may enroll in up to two academic courses at the 100 & 200 level for transferable college credit. Program Contact: summerscholars@luc.edu

North Central College: Naperville, IL

[Summer Language Academy](#)

The Summer Language Academy (SLA) is a two-week program that helps students, ages 13 and older, develop practical English skills. SLA is hosted by North Central College in Naperville, Illinois, near Chicago. Summer Language Academy students will live on the North Central College campus with American counselors and staff, speak English every day with native speakers, and practice important study skills while also learning about American education. In addition to these activities, program attendants will also have the opportunity to learn about American culture, and visit Naperville and Chicago with instructors and counselors to practice their skills. Northwestern University: Evanston, IL

[College Preparation Program](#)

[*EducationUSA Academy, IN FOCUS Seminars*](#)

[National High School Institute \(Cherubs\)](#)

[*Debate Division, Film & Video Division, Journalism Division, Theatre Arts Division*](#)

High school students can get a taste of Northwestern academics and campus life through a variety of summer programs. The College Preparation Program is designed for high school students from the U.S. and around the world who are seeking new academic challenges. While participating in the program, students can take undergraduate courses for college credit, or enroll in a two-week IN FOCUS seminar in a special topic area. Since 1931, the National High School Institute has provided summer enrichment programs to talented high school students from across the nation and all over the world. These programs are not graded or for credit, but have rigorous academic curriculum centered on one of four divisions listed above. Both programs will allow students to gain practical college-level experience, interact closely with outstanding faculty, tackle new social and intellectual challenges, and experience campus life with other exceptional high school students.

Rose-Hulman Institute of Technology: Terre Haute, IN

Operation Catapult

For 50 years, students from around the world have devoted two weeks to work together on project teams to assess, plan, experiment, and build to meet real challenges. Demonstrations, lectures, and field trips enhance their learning and help them grasp the sociological implications of science and its far-reaching effects. Along the way, they utilize every bit of ingenuity they've absorbed in 11 years of school to complete projects most people have never heard of; and have a blast doing it.

Program Contact: jared.goulding@rose-hulman.edu

University of Missouri: Columbia, MO

Career Exploration Summer Program

The Career Exploration Summer Program is a 2-week program in which Explorers experience a taste of various 21st century career paths. The program includes professional site visits to Fortune 500 companies, nonprofit organizations, and U.S. Government Buildings such as the State Capital and State Supreme Court. Social activities include free time at the on-campus Student Recreation Center - one of the finest recreational facilities in the United States, watching professional sports teams, and exploring new places during program field trips. Program Contact: mucoemie@missouri.edu

University of Notre Dame: Notre Dame, IN

iLed, Pre-College Summer Programs

[Leadership Seminars](#), [Seminary Immersion](#), [Study Abroad](#), [Summer Scholars](#)

Notre Dame offers a variety of summer programs aimed at providing a hands-on and intensive academic, cultural, and leadership experience. Students in these programs will work directly with Notre Dame faculty in classrooms and laboratories, and on academic and cultural excursions outside of the classroom and even the country. iLED is a two-week program taught by ND faculty with a focus on international leadership. Students take courses at the College of Engineering, College of Science, Mendoza College of Business, College of Arts and Letters, and the School of Architecture. The program offers the best exposure to life at ND, and broadens students' understanding of science, engineering, humanities, business, social sciences, arts, and architecture. As a Summer Scholar or a participant in the Leadership Seminars, you'll have access to the Grotto, the Golden Dome, and the hallowed halls. If you go abroad with us to Rome or Ireland in our Study Abroad programs, you'll have access to the sweeping sights of the Eternal City or the rich history of the Emerald Isle. You'll spend a summer living, learning, and serving as a Notre Dame student.

Ithaca College: Ithaca, NY

[Summer College for High School Students](#), [Summer Music Academy](#)

In Ithaca College's residential pre-college summer program, high school students experience college life and college-level courses while living in a safe environment. Summer College for High School Students provides opportunities for high school students to earn college-level credits while living on one of the most beautiful campuses in New York State. Students may choose the one-week or the three-week session. Each offers a variety of courses in business and management, liberal arts, communications, health sciences, and theatre. Summer Music Academy provides a creative and supportive environment for young adults to grow as musicians and people. Our high school program is unique in that it offers a residential pre-college experience with a rich offering of music courses, as well as non-music courses, taught by Ithaca College faculty and top music educators from across the United States. The program has been designed to allow students interested in pursuing careers in music the experiences needed to hone and expand upon their interests, as well as investigate new areas of interest, and to give students whom do not wish to pursue a career in music the option to have a quality summer music experience. Students who take part in either program will experience campus life and participate in trips, picnics, movies, concerts, talent shows, and other events as part of the programs.

Syracuse University: Syracuse, NY

[Summer College for High School Students](#)

Syracuse University Summer College provides current high school students with the opportunity to explore college majors in more than 25 credit and noncredit programs through subject areas like Animation & Game Design, Criminal Justice, Experimental Geology, and Media Literacy, Popular Culture & Democracy. Dates will vary by two, three, four, and six weeks based on length of program. Aimed at international high school students who are interested in intensive English classes and attending an American college/university, the [EducationUSA Academy](#) is also available through the Summer College. Program Contact: sumcoll@syr.edu

University of Rochester: Rochester, NY

[Pre-College Programs](#)

Intensive Studies, Rochester Scholars, Taste of Summer

Spend your summer immersing yourself in another culture and getting a true taste of the college experience. The University of Rochester's Pre-College Programs brings high school students from around the world to explore the University and its resources. International students like you make significant contributions to the program by fostering respect for other cultures and introducing unique perspectives. You can live on campus for a month to complete a college class for credit or participate in our intensive studies or non-credit courses. Program Contact: precollege@rochester.edu

Washington & Jefferson College: Washington, PA

[The English Language Institute](#)

The ELI at Washington & Jefferson College (W&J) is tailored to students preparing to study in the United States at the undergraduate or graduate level. Students are enrolled in a rigorous course of study structured to meet the English language and technical academic skill building requirements to be successful in their academic pursuits. ELI students are immersed in American campus life: participating in clubs and organizations & playing intramural sports. They are also guaranteed housing on campus. Program Contact: dpooles@washjeff.edu

Wentworth Institute of Technology: Boston, MA

[SummerFAB](#)

The SummerFAB program, sponsored by the Department of Architecture, unites design thinking with making full-scale artifacts. Students experience all phases of a complete architectural project—from initial concepts through design development and including realization as a full-scale construction on a site. Intertwining thinking and fabrication in the process of design from beginning to end conveys an understanding, crucial for designers, that making is a form of thinking. Students will learn from experienced members of the Wentworth architecture community, participate in studios led by designers educated in the Wentworth Architecture graduate degree program, and learn firsthand about Boston's architectural and urban heritage. Program Contact: macdonalddt1@wit.edu

Wesleyan University: Middletown, CT

[Pre-College Study](#)

Wesleyan University offers a special opportunity for a select group of students during the summer - a 5-week college immersion experience. Wesleyan Pre-College Residential Scholars students take one of two outstanding writing courses and an elective course in their area of interest - both for full college credit. Beyond the classroom, students earn a Social Justice certificate and benefit from faculty mentorship in addition to participating in activities organized by Residential Advisors. Program Contact: precollege@wesleyan.edu

Worcester Polytechnic Institute: Worcester, MA

[Frontiers Program](#)

WPI's Frontiers program is for soon-to-be high school juniors and seniors who are interested in the science, technology, engineering, math, and robotics fields. Students will learn current laboratory techniques and explore unsolved problems across a wide spectrum of STEM disciplines. Rounding

[Back to top](#)

out the academic experience are humanities and arts workshops in areas such as writing, art, music, theatre, and more. Learn from outstanding professors utilizing state-of-the-art technology, and enjoy added activities such as evening workshops, field trips, movies, live performances and tournaments. Lipscomb University: Nashville, TN

Summer Scholars

Lipscomb's Summer Scholars is a 10-day residential academic program that emphasizes experiential learning and includes visits to Nashville-area attractions and activities. Summer Scholars is open to all rising seniors who have scores on the ACT ≥ 24 or SAT ≥ 1160 (ERW+M). Summer Scholars get a

[Back to top](#)

head start on their college career by earning three hours of tuition-free college credit and getting a glimpse of college life before heading off to their full college experience as freshmen. Students can select from six different courses, most of which will fulfill college general education requirements. When students are not in academic classes, they will experience a variety of planned activities in and around Nashville designed to entertain and educate. There will also be plenty of free time to do classwork and to get to know fellow Summer Scholars from across the country. Plus, Summer Scholars are automatically admitted to Lipscomb upon completion of the summer program for when they graduate, so no further application is necessary for their senior year!

Program Contact: Lauren.Saunders@lipscomb.edu

Ringling College of Art + Design: Sarasota, FL

Pre-College

At Pre-College, you will eat, breathe, and live art & design. Open to students ages 16-18, you will attend daily classes in TWO immersions in the Ringling majors, as well as courses in art fundamentals. Taught by Ringling College faculty and assisted by Teaching Assistants who are Ringling students, you will boost your knowledge of technique and media while working on amazing projects in our world-class studios and labs. All students live on campus in this fun, yet challenging program.

Program Contact: precollege@ringling.edu

Tulane University: New Orleans, LA

Career Explorations in Architecture

Career Explorations offers high school students a short, intensive, and engaging introduction to the unique blend of visual orientation, creative process and academic investigation that forms an architectural education. Students will spend three weeks exploring the ideas, methods, and issues of architecture through lectures, design studio, digital workshops, and field trips around New Orleans with Tulane professors and local architects. The class will meet Monday thru Friday, 10:30am to 12pm and 1pm to 3pm, with weekend field trips. Program Contact: MWilliams@tulane.edu

University of Alabama: Tuscaloosa, AL

Student Introduction to Engineering

Student Introduction To Engineering (SITE) is a summer program for rising high school juniors and seniors who are interested in science, technology, engineering and mathematics. SITE consists of five nights of fun and exploration - you won't roast marshmallows at this camp! As a SITE student, you'll live in a UA residence hall, engage in teaming exercises, and tour an industrial plant to see engineers at work. You'll challenge your mind with mathematics, engineering, computer science and English courses. And you'll team with other ambitious students in a design competition sure to test your skills.

University of Houston: Houston, TX

Hospitality Industry Summer Camp

For high-school students interested in hotels, restaurants, catering, clubs, casinos and related fields, Hilton College's Hospitality Industry Summer Camp Program is an ideal opportunity to visit the College and explore hospitality professions. Students who attend these three-day experiential camps, which are held every June, learn about the hospitality industry firsthand by touring some of Houston's top hospitality destinations. They meet with leading industry executives to learn more about the

[Back to top](#)

variety of career possibilities in hospitality, prepare gourmet meals with our hotel's executive chef and take classes. Prospective students learn more about the College and university life by interacting with Hilton College students, touring the campus, and staying in Cougar Village, one of the University's dormitories. Program Contact: akander@central.uh.edu

University of Mississippi: Oxford, MS

[Summer College for High School Students](#)

Summer College for High School Students (SCHS) is a four-week academic program designed to provide rising U.S. and international junior and senior high school students the opportunity for a glimpse into college life for four weeks during the summer. As part of the program, students take two college-level classes, in one of several fields. During this time they will gain credits for each, have the opportunity to see how collegiate level classes are structured, and what college professors will expect from them. In addition to high academic quality, this experience includes the opportunity to spend the summer in a charming town, and on a campus ranked nationally for its safety and beauty. Students will experience college life early and develop personal and academic skills that will last a lifetime!

Program Contact: precollegeintl@olemiss.edu

University of Tulsa: Tulsa, OK

[Screenwriting & Filmmaking Camps](#)

Filmmaking Camp, Screenwriting Camp

The University of Tulsa offers both a Screenwriting Camp and a Filmmaking Camp in July. Led by faculty and industry experts, students explore screenwriting and filmmaking through stimulating group activities and film screenings. Students create their own short script or film to share at the end of the week. Participants stay on campus in a supervised residence hall. English language ability is essential, application and costs available at The University of Tulsa website.

U.S.A. - West

Lewis & Clark College: Portland, OR

[EducationUSA Academy](#)

EdUSA Academy at Lewis & Clark is for international and third-culture students with high-intermediate to advanced English interested in improving their academic English, while also learning what it means to be a leader. Topics include leadership, intercultural training, and the entrepreneurial mindset. Join Lewis & Clark, a small liberal arts campus, with the vision to engage the next generation of global thinkers and leaders. Visits to other universities and help with applying to universities or colleges in the U.S. Program Contact: aes@lclark.edu

Loyola Marymount University: Los Angeles, CA

[Pre-College Summer Programs](#)

Our two-week residential immersion programs are designed in close partnership with LMU's renowned undergraduate faculty to help high school students explore academic passions, evolve as individuals, and discover what it means to have the heart of an LMU Lion. Programs will explore

[Back to top](#)

topics like environmental science and the myth of the American west in literature and film, and will include a service focused leadership seminar. Please visit our website for detailed course descriptions. Program Contact: summer@lmu.edu

Oregon State University: Corvallis, OR

[Summer Youth Experience](#)

Our program has been designed for high school students looking for an adventure in the U.S. while improving their English and preparing for college. The program structure contains around 9 hours per week of course work covering the core skills of reading, writing, listening, and speaking in English, as well as 9 hours per week of college preparation and advising. Classes will take place on Oregon State's campus, but students will take part in adventure trips around Oregon traveling to Crater Lake, the beach, and a hike. Program Contact: into.specialprograms@oregonstate.edu

Southern Oregon University: Ashland, OR

[Intensive English Program](#)

SOU's Intensive English program provides a dynamic and innovative learning environment for academically and professionally-bound students studying English as a Second Language. The university, and town of Ashland, offer a culturally rich environment for you to develop the skills necessary to adapt to American university life and succeed in our changing global environment. Summer IEP is an eight week session that includes 20 hours of classroom instruction each week. Students are tested at the beginning of the program for placement.

Program Contact: portern@sou.edu

University of Colorado Boulder: Boulder, CO

[Summer Discovery](#)

CU Scholars Credit Academies, STEM Academies, STEM Research Experience

Science Discovery offers immersive summer research experiences for high school students in a dynamic academic and social community. Students will have the chance to conduct their own research and collaborate with CU Boulder faculty and graduate students, all against the backdrop of the Colorado Rocky Mountains. STEM Research and STEM Academies offer opportunities in science, technology, engineering, and mathematics to highly motivated high school students. Choose from a variety of cutting-edge Academies or fascinating research topics. In addition, CU Scholars Credit Academies offer a variety of intriguing topics to choose from, as well as an opportunity to earn college credits.

Program Contact: info@summerdiscovery.com

University of Colorado Denver: Denver, CO

[LYNX National Arts & Media Camps](#)

Advanced Singer/Songwriter, College of Arts & Media Preview Week, Filmmaking and Digital Animation/Motion Graphics, Music Industry, Photography, Sculpture

The LYNX National Arts & Media Camps are summer immersion programs for high school students interested in music and the arts. These programs are hosted on the University of Colorado Denver campus and sponsored by the CU Denver College of Arts & Media. At the camp, we host high school students from throughout the country and around the globe, enabling a diverse and enriching experience as students bond over a shared passion for the arts.

[Acting Intensive](#), [Architecture](#), [Biotechnology](#), [Business & Entrepreneurship](#), [Engineering](#), [Entertainment Management](#), [Environmental Science & Sustainability](#), [Forensic Science: CSI](#), [Game Design](#), [Intelligence & National Security](#), [International Diplomacy](#), [Journalism, Film, & Media Arts](#), [Law & Advocacy](#), [Mastering Leadership](#), [Medicine & Health Care](#), [Nursing](#), [Political Action & Public Policy](#), [Psychology & Neuroscience](#), [Sports Management](#), [Theater](#)

EducationUSA: Various Locations

The EducationUSA Academy is a pre-college academic enrichment program for international high school students offering specialized college preparatory content, college-level writing workshops, campus visits, and cultural activities. Students gain an insider's perspective on higher education in the United States while getting the chance to experience and enjoy campus life.

World Wide

Oxbridge Program: Various Locations

Our courses use the city like a classroom, taking full advantage of the local museums, historical sites, laboratories, and local experts available. You will get a full pre-college experience by living in the same spaces as undergraduates during the year. During your free time, you can explore a new city and make friends with peers from across the world. Whether your dream is to study Medicine at Oxford, improve your French or Spanish, or make a film in Los Angeles, we have a program for you!

UTP Beyond Borders: Various Locations

Since 1999, we have always envisioned a world where everyone can succeed wherever you are, wherever you're from. UTP is centered on becoming the gold standard for international exchange programs in the Philippines. We are committed to operating as a for-student company, prioritizing what's best for our participants at all cost. We empower young leaders by developing characters, redefining mindsets, and breaking down walls of stereotypes – one exchange at a time. We believe in global citizenship and making small and big differences, moving our participants to take on a purpose beyond themselves. We're passionate to create the best experiences to change makers, here and abroad. With over a decade of excellence in cultural and educational exchange programs, UTP has helped thousands of people to

[Back to top](#)

explore and understand the world. To date, UTP works with a wide network of established partners fostering intercultural understanding between people of different nationalities, ages, interests, and aspirations.

[Pre-Med Projects](#): Various Locations in UK, India, and Thailand

Looking for Medicine work experience? Are you a student interested in a career in healthcare? Premed Projects arranges hospital work experience in UK hospitals, India hospitals and Thailand hospitals for aspiring healthcare students aged 16+. Students join us for a 1 or 2-week hospital work experience, shadowing doctors in a variety of hospital departments, visiting medical schools and learning about life as a healthcare professional. During the medical work experience week students stay in Premed Projects accommodation, fully supported by our comprehensive staff teams during your stay. Students are welcome to join us from all over the world, from the ages of 16 and older for an amazing 1-week or 2-week experience of medicine work experience and the perfect start to your future healthcare career. Program Contact: info@premedprojects.co.uk
