Does God exist? Has science disproved Christianity? Did Jesus really exist or was he a copycat of myths like Horus and Osiris? Do all religions lead to God? Is the Bible so full of contradictions and errors that it is not to be trusted? Do all the bad things in the world prove that God does not exist?

If you have ever been confronted with these questions, please consider joining the Brent Christian Apologetics Club. Apologetics comes from the Greek word apologia, which means "a defense." So Christian apologetics involves making a case for the truth of the Christian faith. At each club meeting we will investigate the above claims as you learn how to defend the Christian faith. All are welcome to explore the rational, logical, and historical side of Christianity.

Does God exist? Has science disproved Christianity? Did Jesus really exist or was he a copycat of myths like Horus and Osiris? Do all religions lead to God? Is the Bible so full of contradictions and errors that it is not to be trusted? Do all the bad things in the world prove that God does not exist?

If you have ever been confronted with these questions, please consider joining the Brent Christian Apologetics Club. Apologetics comes from the Greek word apologia, which means "a defense." So Christian apologetics involves making a case for the truth of the Christian faith. At each club meeting we will investigate the above claims as you learn how to defend the Christian faith. All are welcome to explore the rational, logical, and historical side of Christianity.
